## **Recognised Training Centre Price List**

**2024**

You can buy online at [trade.rya.org.uk](https://trade.rya.org.uk)

This price list is to enable Recognised Training Centres to easily identify which items are needed for each course. The supporting books listed here are limited to core and recommended titles but you'll find more titles for further reading and development on our trade shop. Visit [www.rya.org.uk/go/trade](http://www.rya.org.uk/go/trade) for more information and details on how to activate your online trade account so you can browse the full range and purchase online.

RYA Training Centres automatically have a special trade discount which comes with RYA Recognition to enable centres to buy and sell certain retail items. This facility provides discounts not only on RYA print retail products but other items that we sell.

These prices apply from January 2024. The RYA reserves the right to amend prices at any time.

## The RYA Books App

The RYA Books app has grown enormously over the years and contains all eBooks for sale and more than 50 for free (including the RYA Magazine, guides, and Instructor subscription content); the app is also used to support the delivery of ePacks and eSubscriptions. We now have more than 110,000 users across our iOS, Android and Windows apps from 150 countries around the world. You can find more information at [www.rya.org.uk/go/app](http://www.rya.org.uk/go/app).

## Apple Books & Google Play Books

We're committed to publishing eBooks on a number of different popular platforms, so that everyone can enjoy them. So, we're continuing to release and update our eBooks on Apple Books and Google Play Books, in addition to the RYA Books app. Please note that these formats are separate from RYA eBooks or eSubscriptions purchased through the RYA shop, but they provide us with the opportunity to provide for a growing demand and give us the ability to offer accessible eBooks.

## Accessible eBooks

We release all new eBooks on Apple Books and Google Play Books, and we're making great progress towards converting all of our existing titles. These platforms allow us to take advantage of the full accessibility features that Apple and Android offer. Due to the level of demand and the rate of change, we don't provide digitally accessible course materials by default (such as Day Skipper student packs). However, we pride ourselves in offering a bespoke on-demand service, whereby we provide fully accessible material upon request. So, if you're looking for an accessible version of digital course materials for your student, please email [publications@rya.org.uk](mailto:publications@rya.org.uk).

## eBooks for Training Centres

Please note that eBooks aren't covered under the Training Centre discount. They are linked to individual email addresses, and there's currently no provision for widespread bulk eBook sales for trade (outside of ePacks).

Should a Training Centre require an eBook as a shared teaching resource, they can contact the Orders team to purchase one without a discount.

## eBooks for Instructors

You can use the interactive content in RYA eBooks to demonstrate or enhance learning on and off the water. There are a host of useful features which we're always evolving, including bookmarks, notes, highlights, and page history. These will help you to manage the content and support your teaching.

We would recommend that RYA Instructors buy eBooks from the RYA shop, using their personal account to access the membership discount. Alternatively, you can also purchase Apple Books or Google Play Books (without the membership discount).

You can take advantage of further discounts by purchasing one of our annual eSubscription packages through the RYA shop. Here, you can gain access to all relevant materials for the various RYA schemes. Visit [www.rya.org.uk/go/subscriptions](http://www.rya.org.uk/go/subscriptions) for more information.

Visit [www.rya.org.uk/go/ebooks](http://www.rya.org.uk/go/ebooks) for more information on RYA eBooks.

## Audiobooks

You can buy our first RYA audiobooks from all major stores, and the team is working hard to bring more titles to life. We know that people love engaging content and that they learn more effectively with a compelling sensory experience. For example, audiobook narrators can use their vocal range and add emphasis and dramatic intent to their voices, which can provide a powerful and memorable sensory experience for listeners. Our aim is for our audiobooks to be a useful and easily accessible reminder, refresher, companion, or supporting tool, rather than a replacement for the print book or eBook.

Visit [www.rya.org.uk/go/audiobooks](http://www.rya.org.uk/go/audiobooks) for more information.
